Друзья, уже 12 лет мы каждый день делаем шаг вперед. Каждый из наших проектов уже имеет за своими плечами свою историю. За каждым стоит дружный и профессиональный коллектив. Поддерживая интеграционные процессы в сфере образования, 1 июня 2017 года мы открываем международное профессиональное онлайн-сообщество Higher Education Discovery (HED) и приглашаем всех заинтересованных специалистов присоединиться к проекту. Новая коммуникативная платформа дает возможность глобального общения! Присоединяйтесь!

**С уважением,
директор Екатерина Шигапова**

На заседании президиума Совета при Президенте РФ по стратегическому развитию и приоритетным проектам, состоявшемся 30 мая 2017 года, был рассмотрен паспорт нового приоритетного проекта «Экспорт образования», в результате реализации которого иностранных студентов, аспирантов должно стать в России больше в 3,5 раза.

– Экспорт образования – это не только и даже не столько возможность заработать для университетов, – подчеркнул председатель Правительства РФ Дмитрий Медведев. – Прежде всего, это один из сильнейших факторов межличностных коммуникаций, расширение культурных контактов, привлечение в национальную экономику наиболее талантливых людей, которые, кстати, в ней могут и остаться, а в известной степени и просто выстраивание долгосрочной политики нашей страны. <...> Нам есть что предложить, чему научить.

Презентация международного профессионального онлайн-сообщества Higher Education Discovery (HED) прошла на Международной конференции Азиатско-Тихоокеанской сети гарантии качества APQN «New Horizons: Dissolving Boundaries for a Quality Region» в Москве 26 мая 2017 года на базе РАНХиГС при Президенте РФ.

Step 2 of 5. Rules of publication

PLEASE CAREFULLY READ THE RULES OF PUBLICATION

It is very easy to make a proper publication!

1. Only post the publications useful for the Club members.

2. Do not replicate the publications which have already been posted on the AO club site.

3. Post the publication in whole in the «Publication text» field, and do not attach it in whole or in part as a separate file or link.

4. Be careful when copying the text.

To copy the content from the file correctly, use a special «Publication uploading» function. Be careful when making simple copying: the publication formatting can be damaged!

Remember to check the publication after copying. Check the images, the attached files, links and tables.

5. Please make you publication readable: rubricate your text, indent paragraphs and highlight basic points. The images will make your publication more interesting.

6. The files must be uploaded if their content cannot be represented as a text in the «Publication text» field. For example, PowerPoint presentations, audio files, Excel tables.

7. Fill in as much information on the publication as you can.

Filling in all the publication description blocks will help other users easily find it in web search engines.

8. Use «Preview» before publicate your content. Make sure the publication text has been designed properly.

The administrators reserve the right to delete the publication which does not comply with the rules.
